

**Robert C Swanson**Co-founder and Senior Partner  
CNX Corporation

PKS has been an absolutely fantastic partner to work with. Their highly skilled team of developers thoroughly understand and embrace the concept of optimizing user experience, resulting in some of the most impressive IBM i applications we've seen. PKS is also adept at spotting opportunities for improvement – we owe the PKS team much gratitude for having suggested many of the features we have implemented in our software over the years.
